

Retrofit Filter Elements

Retrofit filter elements are now available from Artic Driers International, and the six brands shown below, are kept in stock in our Johannesburg warehouse. Manufactured in England to ISO 12500 and complying with ISO 1873, the elements utilize high quality moulded end caps and top quality filtration media. DOP tests are performed in house in the UK on a routine basis.

Ex Stock Elements are;

- Atlas Copco
- Compair
- Domnick Hunter
- Hiross
- Hankison
- Ingersoll Rand
